

TABLE OF CONTENTS

PREFACE

CHAPTER 1 SYSTEM DEVELOPMENT AND ITS RELATIONSHIP TO CONCEPTUAL MODELLING

1.1 SYSTEM DEVELOPMENT AND MODELS

1.2 CONCEPTUAL MODELS AND SOFTWARE STRUCTURE

REFERENCES

CHAPTER 2 OBJECT-ORIENTED CONCEPTS

2.1 INTRODUCTION

2.2 OVERVIEW OF OBJECT-ORIENTED CONCEPTS

2.3 OBJECT IDENTIFIER

2.4 INTERNAL STRUCTURE OF AN OBJECT

2.5 MESSAGE PASSING

2.6 CLASS

2.7 INHERITANCE

2.8 OVERLOADING

2.9 LATE BINDING, VIRTUAL FUNCTIONS OR METHODS, AND POLYMORPHISM

2.10 COMPOSITE OBJECTS (PART-OF)

2.11 DATA AND PROCEDURAL ABSTRACTION

2.12 RECAPITULATION

REFERENCES

CHAPTER 3 CONCEPTUAL MODELLING

3.1 INTRODUCTION

3.2 MODELLING ISSUES

3.3 STATIC AND DYNAMIC PROPERTIES

3.4 CONCEPTS AND INSTANCES

3.5 RELATIONSHIPS

3.6 EXPRESSING CONCEPTS AND INSTANCES AS OBJECTS

3.7 PERSPECTIVES

3.8 RECAPITULATION

REFERENCES

CHAPTER 4 OBJECT-ORIENTED ANALYSIS - STATIC ANALYSIS AND INTRA-OBJECT DYNAMICS

4.1 INTRODUCTION

4.2 DEVELOPING A NATURAL LANGUAGE DESCRIPTION OF THE PROBLEM

4.3 NATURAL LANGUAGE DESCRIPTION FOR BELL MOTORS SYSTEM

4.4 DEVELOPING A CONCEPTUAL MODEL

4.5 IDENTIFYING CONCEPTS AND CLASSES

4.6 DETERMINING STATIC RELATIONSHIPS BETWEEN CLASSES

4.7 IDENTIFYING THE INTERNAL STATIC STRUCTURE OF CLASSES

4.8 IDENTIFYING THE INTERNAL DYNAMIC STRUCTURE OF OBJECTS

4.9 DEVELOPMENT OF CLASS DIAGRAM

4.10 RECAPITULATION

REFERENCES

CHAPTER 5 OBJECT-ORIENTED ANALYSIS - INTEROBJECT DYNAMICS

5.1 INTRODUCTION

5.2 IDENTIFYING EXTERNAL BEHAVIOR AND ASSOCIATING IT WITH CLASSES

5.3 IDENTIFYING EVENTS AND MESSAGES AND ALLOCATING TO CLASSES

5.4 DEVELOPMENT CYCLE

5.5 RECAPITULATION

REFERENCES

CHAPTER 6 USER INTERFACE ANALYSIS

6.1 INTRODUCTION

6.2 OVERVIEW OF USER INTERFACE ANALYSIS AND DESIGN

6.3 OVERVIEW OF USER INTERFACE ANALYSIS LEADING TO LOGICAL MODEL OF THE USER INTERFACE

6.4 MAIN STEPS IN USER INTERFACE ANALYSIS

6.5 INFORMAL INTRODUCTION TO PERSPECTIVES, ABSTRACT UI CLASSES AND CONCRETE UI CLASSES

6.6 SEMI-FORMAL DESCRIPTION OF PERSPECTIVES, AUI AND CUI CLASSES

6.7 FLOW OF INTERACTION NET (FIN)

6.8 Illustrative example

6.9 RECAPITULATION

REFERENCES

CHAPTER 7 COMPONENT-BASED DESIGN

7.1 INTRODUCTION

7.2 WHAT IS A COMPONENT?

7.3 COMPONENTS VS. OBJECTS

7.4 BENEFITS OF COMPONENTS

7.5 COMPONENT-BASED DESIGN

7.6 COMPONENT FRAMEWORKS

7.7 COMMERCIAL COMPONENT FRAMEWORKS: DCOM & CORBA

7.8 RECAPITULATION

REFERENCES

CHAPTER 8 SERVICE-ORIENTED COMPUTING

8.1 INTRODUCTION

8.2 SERVICE-ORIENTED ARCHITECTURE

8.3 SOFTWARE ENGINEERING OF SERVICES AND SERVICE APPLICATIONS

8.4 RECAPITULATION

REFERENCES

CHAPTER 9 DATABASES - STATIC DESIGN

9.1 INTRODUCTION

9.2 OVERVIEW, REVIEW OF CONCEPTS AND METHODOLOGY

9.3 TRANSFORMATION OF INHERITANCE HIERARCHIES

9.4 TRANSFORMATION OF ASSOCIATION RELATIONSHIPS

9.5 TRANSFORMATION OF COLLECTION TYPES

9.6 ISSUES

9.7 COMPARISON WITH EXISTING WORK

9.8 TRANSFORMATION OF AGGREGATION HIERARCHIES

9.9 RECAPITULATION

REFERENCES

CHAPTER 10 DATABASES - DYNAMIC DESIGN

10.1 TRANSFORMATION OF GENERIC METHODS

10.3 GENERIC METHODS TRANSFORMATION PROCEDURES

10.4 EXAMPLES

10.5 ENCAPSULATION

10.6 SUMMARY OF TRANSFORMATION OF GENERIC METHODS

10.7 USER-DEFINED METHOD REPRESENTATION AND OPTIMISATION

10.8 USER-DEFINED METHODS IN RELATIONAL DATABASES

10.9 USER-DEFINED METHODS IN SINGLE CLASSES

10.10 USER-DEFINED METHODS IN AN INHERITANCE HIERARCHY

10.11 USER-DEFINED METHODS IN AN AGGREGATION HIERARCHY

10.12 USER-DEFINED METHODS IN AN ASSOCIATION RELATIONSHIP
10.13 RATIONALE FOR OPTIMISATION
10.14 SUMMARY OF TRANSFORMATION OF USER-DEFINED METHODS
REFERENCES

CHAPTER 11 USER INTERFACE COMPONENT DESIGN

11.1 INTRODUCTION

11.2 OVERVIEW OF THE PERCEPTUAL DESIGN OF THE USER INTERFACE
11.3 TEMPLATE-BASED APPROACH TO THE UI DEVELOPMENT
11.4 PROTOTYPING DURING THE PERCEPTUAL DESIGN
11.5 PROTOTYPES FROM LOGICAL DESIGN
11.6 CLIENT-BASED AND WEB-BASED APPLICATIONS
11.7 RECAPITULATION

REFERENCES

CHAPTER 12 XML DOCUMENT DESIGN

12.1 INTRODUCTION TO XML
12.2 XML MesSAGING
12.3 XML Documents
12.4 Brief Introduction to XML
12.5 Structure of an XML document
12.6 XML Schema
12.7 DOM, SAX
12.8 Informal Discussion
12.9 Document Design Methodology
12.10 Advantages of XML document design using Object-Oriented Conceptual Models
12.11 Transformation of Object-Oriented CONCEPTUAL MODELS to XML Schema.....
12.12 Classes, objects and identity

12.13 Transformation of Aggregation Relationships

12.14 Transformation of Association Relationships

12.15 Transformation of Generalization Relationships

12.16 RECAPITULATION

REFERENCES

CHAPTER 13 OBJECT COMPONENT-BASED APPROACH - WEB ENGINEERING

13.1 Introduction

13.2 System Architecture for Web based systems

13.3 Overview of Development PROCESS

13.4 Audience Categories

13.5 Different Models for use with Web-based systems

13.6 Domain Conceptual MODEL

13.7 NAVIGATIONAL MODEL

13.8 PRESENTATION MODEL

13.9 Top level navigation in a website

13.10 DETAILED NAVIGATION IN A WEBSITE

13.11 RECAPITULATION

REFERENCES

CHAPTER 14 OBJECT-ORIENTED EXPERT/KNOWLEDGE-BASED SYSTEMS

14.1 INTRODUCTION

14.2 DESCRIPTION OF THE STRUCTURE OF AN EXPERT SYSTEM

14.3 WHAT IS MODELLED?

14.4 MODELLING HEURISTICS WITH PRODUCTION RULES

14.5 RULE STATE OR RULE SET

14.6 RULES AND OBJECTS

14.7 REPRESENTING STEREOTYPES AND HIERARCHICAL KNOWLEDGE USING FRAMES

14.8 HYBRID RULE AND FRAME-BASED SYSTEMS

14.9 EXTENDING THE OBJECT MODEL FOR HYBRID RULE AND FRAME-BASED EXPERT OR KNOWLEDGE-BASED SYSTEMS

14.10 MODELLING UNCERTAINTY AND IMPRECISION

14.11 OBJECT-ORIENTED ANALYSIS AND KNOWLEDGE ENGINEERING

14.12 EXTENDED OBJECT DICTIONARY

14.14 RECAPITULATION

REFERENCES

CHAPTER 15 MULTI-AGENT SYSTEMS

15.1 INTRODUCTION

15.2 AGENTS: DEFINITION AND CHARACTERISTICS

15.3 MODELLING AGENTS

15.4 UML MODELLING LANGUAGE

15.5 RECAPITULATION

REFERENCES

CHAPTER 16 SUMMARY AND FUTURE DIRECTIONS

16.1 INTRODUCTION

16.2 SOFTWARE LIFE CYCLE

16.3 BASIC OBJECT_ORIENTED MODEL

16.4 DIFFERENT TYPES OF SYSTEMS CAN BE MODELLED

16.5 FUTURE DIRECTIONS

16.6 RECAPITULATION

REFERENCES

INDEX
